WORK EXPERIENCE(S)

Litestack, Lagos — Fullstack Engineer

OCTOBER 2022 - PRESENT

Built and optimized fullstack applications using **Next.js / Nuxt.js**, **TypeScript**, **GraphQL**, and **tRPC**, delivering modern, high-performance solutions.

Crafted responsive, intuitive user interfaces with **Tailwind CSS**, while applying **Cypress** for thorough end-to-end test coverage.

Focused on performance tuning, clean code practices, and improving developer experience across the stack.

InnovarIdeas, Lagos — Fullstack Engineer

OCTOBER 2022 - APRIL 2025

Engineered scalable web platforms using **Next.js**, **TypeScript**, and **tRPC**, with an emphasis on backend API structure and frontend integration.

Collaborated closely with design and product teams to implement clean, accessible UI using **Tailwind CSS**, and ensured app stability with extensive testing via **Cypress**.

Maintained modular codebases and contributed to architectural decisions to support long-term scalability and maintainability.

Independent Product Development — Fullstack Developer

JUNE 2020 - PRESENT

Built internal tools and web apps tackling problems in education, logistics, and productivity. Delivered fullstack solutions with React, Vue, TypeScript, Python, and Lua—favoring lean, client-first architectures over complex frameworks. Used Tailwind CSS, custom REST APIs, and testing tools like
